Cyber Security Center

Managed Security 24/7

There are new threats to your IT every day. Keeping track and responding in a timely manner can be challenging. We have developed the Skaylink Cyber Security Center to ensure that your business is protected at the highest level 24/7.

Our Cyber Security Center is based on Microsoft solutions and will take over monitoring for you. The Cyber Security Center immediately blocks many attacks through automated response. In addition, we will inform you of any escalations that may occur and suggest appropriate actions. At your request, our security experts can also implement the recommended actions.

Facts

- Professional 24/7 monitoring of your systems
- Automatic evaluation and analysis of signals from your systems
- Azure Sentinel as a technical basis
- Playbook catalog for automated response
- Data remains in your tenant
- Onboarding: 3 to 5 days
- Ramp-up phase: 3 to 5 months
- Optionally, experts can respond to threats

Your added value

- Skaylink takes over operation of the Cyber Security Center
- MISA member (Microsoft Intelligent Security Association)
- Identification of potential identity risks
- Tailored optimization recommendations
- Reduced costs through simplified administration (e.g. self-service password reset)
- Customized dashboard
- Ongoing optimization of best practices and processes for all customers
- Constantly growing number of predefined alert rules
- Automated reports

Why Skaylink?

- 25 years of experience
- On-premises, hybrid, cloud
- Multiple Microsoft Gold Partner – for security and more
- Microsoft-certified security experts
- Microsoft Cloud Partner from the very start
- First FastTrack Partner in Germany
